Edward J. King, has brought forth a storm of disapproval from Washington people with keen interest in school affairs.

Roy C. Claffin, leader of a movement to have the Board of Education elected by the people, has pointed out the weaknesses of King's plan in a letter to King. His views reflect widespread opinion here.

Mr. Claffin's letter declares, in part:

"We want our school administration more representative of the peose ple of Washington so it can be more responsive. Now you propose that it shall be less representative than it is now.

Because of the dangerous air currents, Alfred Lawson, owner and navigator of the craft, decided to

take but few passengers, and only eight persons, including the crew, made the trip.
